EDUCATION

Indraprastha Institute of Information Technology

New Delhi, IN

Bachelor of Technology in Computer Science and Artificial Intelligence

Aug. 2023 – May 2027

- Relevant Coursework: Introduction to Programming, Data Structures & Algorithms, Advanced Programming, Statistical Machine Learning, Operating Systems, Database Management Systems, Linear Algebra, Probability & Statistics, Discrete Structures, Multivariate Calculus

EXPERIENCE

Web Developer Lead

Jan 2025 – Present

Audient - Startup

New Delhi, IN

- Built an event booking platform for comedy, poetry, and music shows, increasing audience engagement by 60%
- Forged a highly performant event platform utilizing Next.js, TypeScript, and Supabase; facilitated a 40% reduction in server response times
- Designed and implemented an admin dashboard for event organizers, reducing event setup time by 50%
- Optimized website performance, improving page speed by 40% and increasing SEO rankings
- **Tech Stack:** Typescript, Next.js, Prisma, Supabase, Turborepo, Tailwind CSS, Razorpay, Better-Auth, Resend
- **Live Link:** audient.in

Web Developer

Dec 2024 – Jan 2025

Cyborg IIITD - AI Club

New Delhi, IN

- Led the development of the official AI Club website, improving load times by 35%
- Integrated real-time event announcements and blog updates, increasing user engagement by 50%
- Worked closely with other members to align the website's functionality with the club's mission of promoting AI awareness and innovation

PROJECTS

CVision | *Typescript, Next.js, PostgreSQL, Prisma, Better-Auth, Supabase, Tailwind CSS*

March 2025

- Developed an AI-powered recruitment platform that automates CV analysis and candidate matching, processing over 10,000 applications monthly
- Implemented intelligent algorithms to extract skills, experience, and education from resumes with 95% accuracy
- Designed a responsive and scalable interface, reducing job posting and candidate shortlisting time by 40%
- Integrated AI-driven match scoring to rank candidates based on job requirements, increasing hiring efficiency by 60%
- Implemented enterprise-grade security measures, ensuring compliance with industry standards and enhancing trust through recruiter verification via company email OTP authentication, securing 100% of recruiter accounts

RE-DACT | *Typescript, Next.js, Tailwind CSS*

Dec 2024

- Built a web-based platform for automated redaction of sensitive data, supporting 10+ file formats
- Delivered a responsive and scalable interface, facilitating seamless and efficient data redactions
- Ensured robust data security by implementing industry standards and best practices for safeguarding sensitive information

Universe Research | *Typescript, Next.js, PostgreSQL, Prisma, Next-Auth TailwindCSS*

Nov 2024

- Designed an intuitive interface allowing students to explore diverse research projects and opportunities
- Enabled professors to post research openings, reducing manual screening efforts by 40%
- Facilitated seamless collaboration between students and professors through integrated communication tools
- Enhanced accessibility and streamlined the research application process, fostering a more productive academic community

Blogging Website | *Typescript, React.js, PostgreSQL, Prisma, TailwindCSS, Cloudflare Hono*

Oct 2024

- Developed a full-stack blogging platform with real-time collaboration for blog editing
- The website features user authentication, profile management, and a rich-text editor for blog content

- Ensured application security by preventing common vulnerabilities like SQL Injection

Crop Buddy | Dart, Flutter

Sept 2023

- Developed a Flutter-based mobile app that detects crop diseases, achieving 95% accuracy in disease classification
- Integrated a TensorFlow Lite model for on-device image processing, reducing analysis time by 70%
- Ensured accessibility by providing multilingual support for 5+ regional languages

HACKATHONS

2nd Place - Smart India Hackathon 2024 (Out of 100+ Teams)

Dec 2024

Web Developer

TrueSight IIITD

- Led the development of RE-DACT, a redaction tool, as part of the Smart India Hackathon 2024
- Built using Next.js for a responsive user interface, ensuring smooth interaction across multiple platforms
- Developed a scalable architecture to handle different file formats, allowing users to redact files seamlessly
- Focused on maintaining the privacy and security of user data during processing, adhering to industry best practices for sensitive data management
- Worked in collaboration with a multidisciplinary team, demonstrating excellent teamwork, problem-solving, and technical skills under tight deadlines

ACHIEVEMENTS

- Achieved a Codeforces rating of 1245 (Pupil)
- Secured a Rank of 4291 in Codeforces Round 964 out of 30,000+ participants

TECHNICAL SKILLS

Languages: C/C++, Python, Java, HTML, CSS, Javascript, Typescript, Rust, Dart

Frameworks: Node.js, Express.js, React.js, Next.js, Electron.js, Flutter

Developer Tools: Git, Github, Docker, TailwindCSS, MongoDB, PostgreSQL, Drizzle, Prisma, Supabase, Razorpay, Next-Auth, Better-Auth, Resend

Libraries: pandas, NumPy, Matplotlib, Scikit-Learn
